

CONSTRUCTION OF SEWERAGE TREATMENT PLANTS

COURSE DESCRIPTION

This course is designed to provide an understanding on the requirements and techniques of constructing a sewage treatment plant (STP). Topics include pre and post construction requirements; construction techniques; testing and commissioning; and construction safety

COURSE OBJECTIVES

At the end of the course, participants will understand and be familiar with:-

- The basic processes and units in STP design
- The fundamentals of construction techniques
- The importance of quality works
- Construction safety

COURSE CONTENT

- Introduction to STPs
- Pre and Post Construction Requirements
- Construction Techniques
- Testing and Commissioning
- Construction safety

DURATION

2 Days

WHO SHOULD ATTEND

Those involved in the design, certification, supervision, operation and maintenance of STP especially Engineers, Technical Assistants, Technicians and clerk of works

COURSE FEE

RM850.00 per person

COURSE SCHEDULE

9.00 am – 10.45am	<input type="checkbox"/> Introduction to Sewerage Treatment Plants <input type="checkbox"/> Pre and Post Construction Requirements
10.45am – 11.00am	Coffee/Tea Break
11.00am – 12.45pm	<input type="checkbox"/> Construction Techniques
12.45pm – 2.00pm	Lunch Break
2.00pm – 3.30pm	<input type="checkbox"/> Testing and Commissioning
3.30pm – 3.45pm	Coffee/Tea Break
3.45pm – 4.00pm	<input type="checkbox"/> Construction safety
4.00pm – 5.30pm	<input type="checkbox"/> Group Exercise and Discussion

Including 1 site visit for the 2nd day
